DETAILED ACTION

Allowable Subject Matter

1. Claims 4-11 and 15-19 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims 4-11 and 15-19 recite, inter alia, a protective barrier and a method of forming a protective barrier on a processing element utilized in a processing system for performing a process, wherein

a bonding layer coupled to the processing element, wherein the bonding layer comprises a layer formed using plasma electrolytic oxidation and includes a transition layer, a primary layer, and an outer layer; and

Although, Shatrov (U.S. 2003/0188972) and Daragheh (US 2003/0150419) teach a protective barrier and a method of forming a protective barrier on a processing element, they fail to teach the above mentioned steps. Moreover, the art of record does not disclose or anticipate the above limitation in combination with other claim elements nor would it be obvious to modify the art of record so as to form a device including the above limitation.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
